22TH JUNE 2024

COURSE ON VST TECHNIQUE

DR. ABDELSALAM ELASKARY

In collaboration with **OsteoBiol**[®]
by Tecness

Introduction

OBJECTIVE

In this one day lecture and hands-on session, the focus will be on the most recent and updated esthetic treatment protocols with dental implants and in particular on the Vestibular Socket Therapy which allows the treating of fresh extraction sites with immediate implant placement that offers a maximum reliable outcome.

A special emphasis will be made on managing and optimizing optimal regenerative outcome in the esthetic zone.

CONTENT

The Vestibular Socket Therapy is an extensively scientifically validated new surgical technique invented by Dr. Abdelsalam Elaskary.

It covers the treatment for a wide scope of socket varieties that includes a complete loss of the labial plate of bone.

This unique technique allows immediate implant placement in severely defective fresh sockets and offers a protocol to place immediate implant in sockets with active infection. Thanks to a minimal intra-operative surgical trauma with less complicated surgical intervention, saves treatment time and minimize the number of intervention.

The innovative surgical approach reduces post extraction socket collapse and the need for long term provisional restoration and provides predictable esthetic outcome.

Lecturer

CURRICULUM VITAE DR. ABDELSALAM ELASKARY

- Graduated in Dental Science at the University of Alexandria in 1986
- Graduated in Implantology at the University of Frankfurt in 1993
- Graduated in the Periodontics Department at the Tufts University in Boston, Massachusetts, US in 1993
- Obtained Master in Dental Implantology at the Periodontics Department at Health and Science Center of San Antonio, Texas, US in 1994
Founder of the Vestibular Socket Therapy treatment (VST)
- Owner of the Elaskary & Associates clinic and educational institutes located in Alexandria, Egypt
- Former Assistan Clinical Professor at the University of Florida, Jacksonville, US from 2000 to 2005
- Currently visiting lecturer at Dental School of the Implantology Department at University of New York, US
- President of the Arab Society of Oral implantology (ASOI) in Cairo, Egypt
- Authored threebooks in the field of dental implantology and oral reconstruction, all published by John Waley and translated into several international languages:
 - "Reconstructive Aesthetic Implant Surgery", Iowa State press, Black Well science. June 2003
 - "Fundamentals of Esthetic Implant dentistry", Blackwell publishing - John Wiley. January 2008
 - "Advances of Esthetic Implant Dentuistry", John Wiley, March 2019
- Authored many articles in the field of implant dentistry

Program and timetable

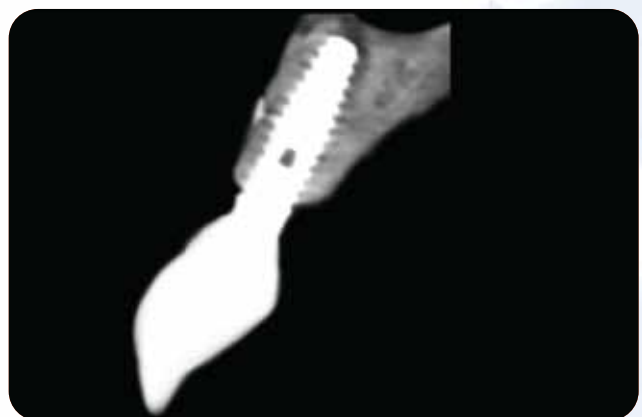

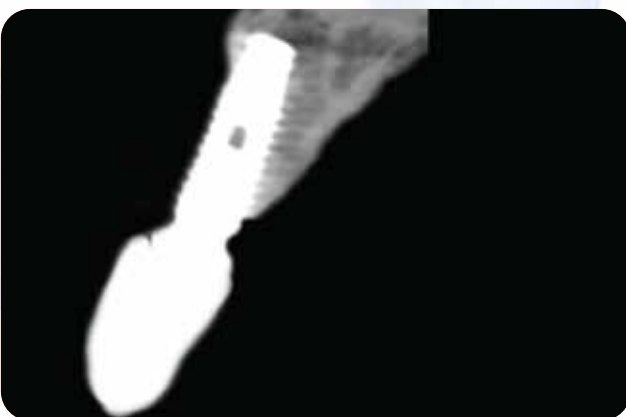

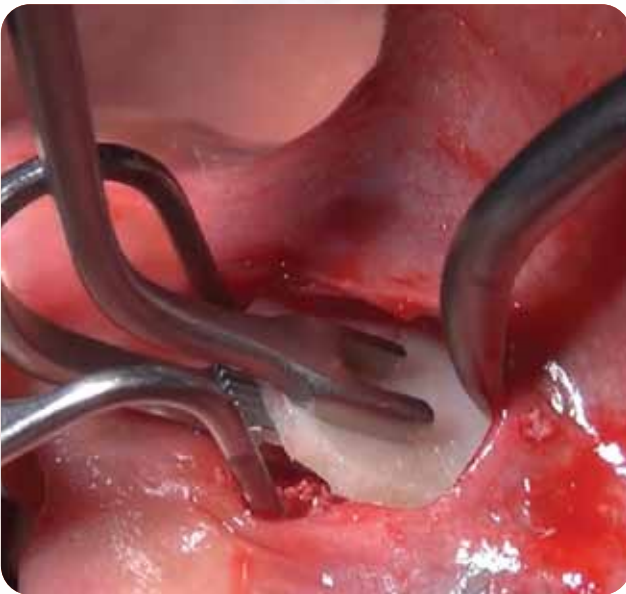

June 22th, 2024 DR. ABDELSALAM ELASKARY

- 09:00 - 09:30 • Registration, Refreshments and coffee, acquaintance.
- 09:30 - 10:30 • The fate of various interventions of immediate implant placement in Fresh extraction sockets.
- 10:30 - 11:00 **Coffee break**
- 11:00 - 12:00 • The rational of the novel Vestibular Socket therapy, bone shielding concept, vestibular root removal concept.
- 12:00 - 13:00 **Lunch Break**
- 13:00 - 14:30 • The 6 days protocol for treating infected fresh extraction sockets & clinical applications, general discussions.
- 14:30 - 15:00 **Coffee break**
- 15:00 - 16:00 • VST Workshop.

THE PROGRAM ORDER MAY BE SUSCEPTIBLE TO CHANGES

The official event language will be exclusively English.
